

# SCORA

$\text{CaCO}_3$  &  $\text{MgCO}_3$

**HIGH QUALITY DC MINERALS**  
**DIRECTLY COMPRESSIBLE RANGE**

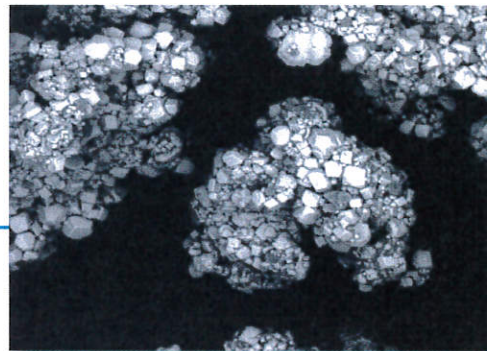

# OUR DC RANGE

## SCORALITE® DC

Scoralite® DC is a GMP compound of high purity Calcium Carbonate granulated with different binders compliant with EP, USP and Food regulations.

Scoralite® DC is designed for DIRECT COMPRESSION.

*Structure of Scoralite® DC*

-  Scoralite® DC 90ST & 95ST (with 10% or 5% Starch)
-  Scoralite® DC 90pST (with 10% Pregelatinised Starch)
-  Scoralite® DC 90MD & 95MD (with 10% or 5% Maltodextrin)
-  Scoralite® DC 97PVP (with 3% Poly Vinyl Pyrrolidone)
-  Scoralite® DC 90AC & 95AC (with 10% or 5% Acacia Gum)

*All these grades are available with Low Lead (<250 ppb) or Low Aluminium (<2 ppm) contents.*

## SCORANAT® DC

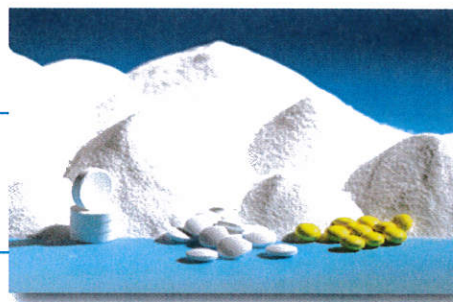

Very pure Natural European Calcium Carbonate : SCORANAT® is also available for Direct Compression

-  • SCORANAT® DC 90ST & 95ST (with 10% or 5% starch)
-  • SCORANAT® DC 90MD & 95MD (with 10% or 5% maltodextrin)

## MAGNESIUM CARBONATE DC

Scoramag DC is a Compound of Precipitated Magnesium Carbonate granulated with starch compliant with EP, USP and Food regulations.

-  Scoramag DC 90ST (with 10% Starch)

## MAGNESIUM HYDROXIDE DC

Compound of Magnesium Hydroxide granulated with 10% starch, compliant with EP, USP and Food Regulation.

-  Magnesium Hydroxide DC 90MD

## ADVANTAGES

Optimised Texture (Cubic Crystal)

**Improved Mouth Feel**

Continuous Fluid Bed Production

**Smaller tablet's size**

Perfect Whiteness

Constant Size Distribution & Density

**Pharmaceutical Establishment**

**Qualified Person : Pharmacist**

High Tablet Density

Excellent Flowability

Excellent Desintegration Time

**Reduced Dust Formation**

**Higher Calcium content**

## CERTIFICATES

GMP 1 certified

DMF registered by FDA

Binders compliant with EP, USP and Food regulations.

**DMF**

**GMP**

**EP**

**USP**

**FCC**

## TAILOR MADE PRODUCTS : CO-GRANULES

- Scora provides tailor made solutions to meet customers individual requests.
- Being known for our expertise in Calcium and Magnesium, Scora can offer co-granules of different minerals and binders to satisfy customer's needs.
- Possibility to mix Magnesium Oxide and/or Magnesium Hydroxide with Scoralite®.
- The ratios of the ScoraBlend are 2 Calcium for 1 Magnesium.

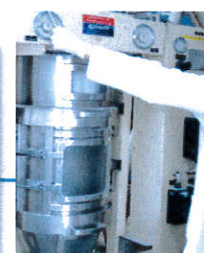

## R&D : DC LABORATORY

Scora is focused on finding solutions for customers.

Scora is continuously investing in R&D to provide :

- Technical support and expertise
- Formulation support
- Improvement of Tablets in Calcium content, hardness, tablet's size, desintegration time.

Our DC laboratory is fully equipped to find the correct tablet formulation, produce it on a small scale and also provide full evaluation on the results.
